

COMPETENCY → EVIDENCE → NEXT PROOF

Competency	Strongest evidence	Current artifact	Next proof item
Backend / API architecture	MetaCam (VEO Studio)	FastAPI domains, provider routing, project registry, validation	Sanitized architecture diagram + service boundaries
AI / ML & LLM integration	MetaCam, LLM/RAG work	Provider routing, LLM adapters, RAG (LangChain/FAISS), metadata discipline	Provider routing diagram + sample contracts
GPU inference orchestration	FlashVSR-runpod	RunPod-style job runner, S3/local I/O, codec controls	Sample job manifest + API contract
Generative & CV workflows	ComfyUI-Zudva, OpenCV/YOLO	Custom nodes, RGBA decomposition, visual QA, CV prototypes	Screenshot pack + workflow JSON
Media engineering	hap-converter	FFmpeg, HAP, DXT/BC, LED/media-server workflows	Codec matrix + CLI examples
Local LLM / audio pipelines	meet_summaraiz	Whisper, Pyannote, Ollama, React review UI	Anonymized transcript-to-report example
Engines & real-time delivery	UE 5.6 world-sim (private)	Packaging, diagnostics, telemetry, OpenStreetMap + PCG	Sanitized packaging case study + screenshots
Exhibition / multimedia delivery	Museums, EXPO, installations	Interactive systems, digital avatars, product demo	Public case pages + media
